PRINCIPAL'S MESSAGE

In the years to come as you leaf through your 1960 NoDaAc, many fond thoughts and memories will return to you. You will recall many favoured and familiar settings where you spent such happy hours together with your friends; the bright and smiling faces of those you have grown to know and to love; the varied and interesting activities and pastimes in which you participated.

But — above all, my dear girls, may you recall the deep and lasting lessons of truth that Notre Dame has tried to implant in your hearts during your years here. If you ever keep in mind this true wisdom, and live it out in your future lives, it will be your surest guarantee of personal success and of eternal happiness; and we will always be able to be as proud of you, as you are today of Notre Dame!

OUR N. D. CHAPLAIN

REVEREND R. W. O'BRIEN

For his cheerful personality, his personal interest in each one of us; for the many spiritual graces and blessings that come to us through him, we are deeply grateful. May God bless him!

CHAPEL

"The pause that refreshes" . . . Students and teachers alike spend silent, loving moments before the altar of God.

EDITORIAL

1960 . . . the year of promise.

In an apparition to three small children in 1913, Our Lady promised that peace would reign through prayer and sacrifice. Has the promise been kept? Perhaps we should ask ourselves, "Have we fulfilled the terms?" Giant strides in nuclear warfare have been welcomed by an insecure world. But is this a step towards true peace? Is this what Our Lady meant?

One of the children who saw Our Lady in 1913 — Lucy — is still alive today. She has written a letter to be opened in 1960, in which is revealed a further message from Our Lady of Fatima.

As we present our 1960 Nodaac, then, we pray that all of us may realize the true meaning of peace, the peace of Our Lady of Fatima.

We dedicate this page of our 1960 NoDaAc to our dear Sister M. Zita who has taken care of our dining room ever since the school began. How we all love her teasing and timely advice which she so freely dispenses as she piles up the endless number of dishes for us to wipe. We shall all remember the sparkling joy that lights up her eyes as we walk in on one of the lovely surprises she so secretly prepares for us. We shall miss her when we leave Notre Dame. They Wanted Light On The Subject...And They Got It!

It was people with inquisitiveness and a sense of experiment in the early, struggling days of Hamilton that brought the first lighting to homes and factories.

In a little cottage on Main Street, a family that had been engaged in the work in England, produced the first sulphur match in 1830.

Then the first use of natural gas as an illuminant in Canada was in the Old Mill at Mount Albion, on the eastern part of the mountain.

The Young brothers of Hamilton took a role in it, too, by following up with the use of petroleum in the shape of a burner for the family lamp — something quite new for Canadians.

Famous in this line was Charles Willson, a chemist of York Street, who discovered acetylene gas — one of the more remarkable individual achievements in the growing town. Willson had a small room over a blacksmith shop and liked to try his talent in experiments.

THROUGH EXPERIMENT AND ORGANIZATION THE GREAT INDUSTRIAL TRIUMPHS OF HAMILTON HAVE MADE ITS NAME FAMOUS . . . WITH IT HAS GROWN THE HAMILTON SPECTATOR, NOW MORE THAN 110 YEARS OLD, AND AT A CIRCULATION FIGURE OF OVER 100,000 COPIES EVERY DAY.

85¢ out of every **\$1.00**
that **EATON'S** spends for merchandise
is spent in Canada

Eaton's is one of Canada's biggest and most consistent customers.

Although we constantly import the specialties of other countries and our buyers shop the markets of the world in search of new and interesting products, nevertheless **the percentage of Canadian-bought merchandise sold in Eaton stores is tremendous.** In fact, more than 85% of the goods we sell are bought from Canadian suppliers.

We buy in every part of Canada—from large industries, small factories and individual artisans, in cities and towns and villages from British Columbia to Newfoundland.

And wherever we buy, we help contribute to the well-being of the community and prosperity of its citizens; we help to keep factories busy and men and women working and earning.

Here is convincing evidence of the faith that Eaton's (and the people who shop at Eaton's) have in the products of Canadian mills and factories . . . in the resources and resourcefulness of Canadian suppliers.

As Eaton's of Canada, we are justifiably proud to be able to play a leading role in the development and progress of Canadian industry.
